SIGNAL OFFICE, WICHITA, Kan., Augus 23.—The highest temperature was 88° the lowest was 64°, and the mean 76° with increasing cloudiness and light rain from 3:30 to 6 p. m.; falling barometer.

Last year on August 23, the highest te perature was 84°, the lowest 60°, and the mean 73°; and two years ago the corresponding temperatures were \$40, 600

FRED L. JOHNSON, Observer. WAR DEPARTMENT, WASHINGTON, D. C., August 23, Sp. m.-Forecast until Sp. m., Sunday: For Missouri-Showers in northwest,

warmer, except in northwest portion; sta tionary temperature.
For Kansas—Local showers in southeast, fair weather in northwest; southerly winds slight changes in temperature.

A HEAVY LOSS.

The Ness City Sugar Mill Totally Burned.

Ness City, Kan., Aug. 23.—The Ness City sugar mill was totally destroyed by fire at 2 o'clock this morning. When first discovered the building, a large three story, seemed on fire all over and nothing whatever could be done to quench the flames. It was the work of an incendiary, as no fire had been in the building for months except in the boiler house which is situated twenty feet south of the main building. As the wind was from the south the boiler house escaned injury.

building. As the wind was from the south the boller house escaped injury.

This mill was the largest in the state and had a capacity of 300 tons daily. The machinery alone cost \$100,000 at the factory and the total loss will reach \$150,000. It was insured for about \$60,000. The mill was built new last year and expected to start up in two weeks. Thousands of acres of cane almost matured will have to be cut and used for feed. Sixty thousand dollars of a bonus was voted by the people and these bonds will have to be paid while no benefit whatever will be received there benefit whatever will be received there-from. The destruction of this mill will practically cripple a number of citizens. The loss on cane to farmers will be light, as most of it was planted by the sugar

ENCOURAGEMENT FOR THE FEEBLE So long as the failing embers of vitality are capable of being rekindled into a warm and genial glow, just so long there is hope for the weak and emaciated invalid. Let him not, therefore, despond, but derive encouragement from this and from the further fact that there is a restorative most potent in renewing the dilapidated powers of a broken down system. Yes, thanks to to its unexampled tonic virtues, Hostetter's to its unexampled tonic virtues. Hostetter's Stomach Bitters is daily reviving strength in the bodies and hope in the minds of the feeble and nervous. Appetite, refreshing sleep, the acquisition of flesh and color, are blessings attendant upon the reparative processes which this priceless invigorant speedily initiates and carries to a successful conclusion. Digestion is restored, the blood fertilized and sustenance afforded to each life sustaining organ by the Bitters. each life sustaining organ by the Bitters, which is inoffensive even to the feminine palate, regetable in composition and thor-oughly safe. Use and regain vigor.

HONORING ERICSSON. Remains of the Great Swedish Inventor

New York, August 23.—The remains of John Ericsson, the inventor, were borne to the Swedish native land for final interment and a tribute paid today to one of the most notable and successful inventors of the century was attended with imposing cere monies worthy of the occasion. The United

Taken to Europe.

Baltimore, In the order was the old Monitor. Nantucket, Lieutenant-Commander George A. Bicknell in command, and as the tag Nina, bearing the remains, passed on her way to the Baltimore minute guns were fired from a battery on the Nantucket. The rest of the squadron was placed in order. The Dolphin, Rear Admiral Gherardi's temporary flag ship, with the Petrel and the veteran war ship Kearsarge, Admiral McCann's flag ship, and the Enterprise, Acting Rear Admiral Walker's flag ship, and the Atlantic and Yorktown.

Colors at the navy yard and on all navy vessels in the harbor were displayed at half-mast. At noon the flags at Governor's island and Ports Hamilton and Wads-worth were lowered. The gurs on Castle Williamon Governor's island, Ports Watswith anyon toverdor's island, roas was-worth and Hamilton, and each of United States war vessels fired a national salute of twenty-one guns as the Baltimore pussed down the bay. Each of the naval vessels hoisted Swedish colors to the fire and falling into line escorted the Baltimore down to Sandy Hook. Early this morning marines from all the war vessels in port were collected from the different ships and

taken to the mavy yard.

Then with marines from the navy yard a battalion was formed and the men transferred to the foot of East Third street. The on Second street. Here the entire column

was to form.

Rear Admiral Braine was in general charge of the ceremonies in co-operation with Major General O. O. Howard, com-manding the department of the Atlantic. The line of march was formed shortly after noon as follows: Battalion of police under Captain Allen, battallon of marines on south side of Second street, facing the cemetery, Tamarathums and Manhelm lodges of Old Fellows and American so-led Ake."

The banks now hold \$2,512,975 less that the requirements of the 25 per cent rule. Ayer's Sarsaparilla will remove that tired feeling, and give new life and energy,

and a tribute paid today to one of the most notable and successful inventors of the century was aftended with imposing ceremonies worthy of the occasion. The United States, as a government, bestowel its greatest honors. Captain Ericsson's own countrymen, many veterans of the civil war, representatives of foreign governments, secret societies and public men of all degrees, united in the last tribute to the memory of the illustrious dead.

Rear Admiral John L. Worden, the heroic commander of the Ericsson Monitor, in the battle of the Hampton roads against the confederate ram Merrimac, March 9, 1862, was the central object of interest to many. The white crusier, Baltimore, which was selected to bear Ericsson's ashes to his native land, was anchored northeast of Ellis island in the harbor. The other naval vessels were today anchored as squadrous, being thirty-three degrees west of the Baltimore. In the order was the old Monitor. Nantucket, Lieutenant Commander George A. Bicknell in command; in setting his proposed that if Sheetz would pay him \$300 the matter would be hushed up. Sheetz refused to do so and then Lewton put his hand to his pistol pocket and sartied toward him when the witness made his pistol and by last him special toward him when the witness made his pistol procket and started toward him when the witness made his pistol procket and started toward him when the witness made his pistol procket and started toward him when the witness made his pistol procket and started toward him when the witness made his pistol procket and started toward him when the witness made him pictol and him him has a sealing to the defendant not guilty. BALL FROM A SCAFFOLD.

BALTIMORE, Md., August 23.—A scaffold upon which several men were at work fell sixty-five feet down a furnace stack at the Carr Towrey Glass works, near here, this morning. The scaffold was at the top of the shaft and three colored men jumped from it to the ground. Two bricklayers managed to catch supports in their descent, but two others, Richard R. and Edward F. Faithful, brothers, fell to the bottom of the shaft. They and William Gillings, colored, were probably fatally injured. The others were but slightly hurt.

Phthisis, or pulmonary consumption, causes more deaths than any other disease, more than many other serious diseases combined. Beside the list of its victims the ravages of such dreaded She-No, but I'd like to try it.-West plagues as cholers, smallpox and yellow fever pale into comparative insignifi-

If phthisis could be eliminated as a factor in the destruction of human life the mortality tables of the life insurance companies would have to be reconstructed, and certainly everything going to throw light upon the cause of this malady or the means of its prevention is of interest from an insurance standpoint.

Therefore a statement recently made by Professor Behrend, the eminent English medical anthority, who anticipated the famous discovery of Koch, is of no little importance.

He says that in the course of a practice of thirty years, largely among Hebrew patients, he has not met a single It cures headache only-Preston's "Hedcase of phthisis in the members of that faith. He attributes their immunity to the Jewish method of examining and slaughtering cattle.

Of course it is not asserted that the Hebrews never suffer from phthisis, but Professor Behrend's experience would seem to indicate that the disease is far less common among them than among the general population. It is known that Hebrews are, as a

race, long lived, and investigation may show that their strict sanitary dietary customs protect them from many dangers to which other races are exposed. The germs of phthisis as well as of other diseases have been found in abundance in unhealthy animals, and it is altogether in accord with the latest scientific doctrines that such diseases should be communicated to man by eating the flesh of diseased animals. The whole subject deserves and will yet receive thorough investigation. - Philadelphia Underwriter.

Philadelphia Intellectuality. Mr. Spofford, librarian of congress, is reported as saying that America has not produced during the last twenty years 'a single author of great genius like Nathaniel Hawthorne or Ralph Waldo Emerson." This is quoted in a way to lead unthinking people to suppose that America is producing no eminent writers. But on closei aspection it is found that the statement is limited to authors statement is too broad, for here in the

"like" Hawthorne and Emerson. Even with this limitation it is not unlikely the single city of Philadelphia there has been produced at least one author in works of the imagination whose books will live as long as Hawthorne's. This ts George H. Boker. And in works of a different but more scholarly character the writings of Henry Charles Lea, based upon the patriotic literature of the middle ages, will be likely to survive when Hawthorne's are forgotten.—Philadelphia Ledger.

CHARLES L. ZIMMER.

He Is One of the Pinest in the Baseball Profession Charles L. Zimmer was born at Marietta, O., on the 23d day of March, 1850. While a young man he passed apprenticeship in a cabinet maker's shop and is a practical

workman. He first began to play ball with the Ironton (O.) team, one of the strongest amateur organizations in south-ern Ohio. He caught for other Ohio clubs, and finally got into eastern company, playing in the Hudson River Valley league and with some of the crack semi-pro-fessional organizations of New York state. Zimmer's work first began to attract ab tention in the baseball world when he was a member of the Poughkeepsie (N. Y.

His batting was the talk of the entire Hudson River variey. It is said that he made more long hits than any other man who played in the organization in all its history. In addition to that he was then giving indication of his future availability as a great catcher. From Poughkeepsi he went to Rochester, N. Y., and in the latter half of 1887 the Cleveland club, then a member of the American association, purchased his release from Rochester. Since then he has been identified with the Cleveland club's interests. He is married and has a family of three little girls. He resides on Woodland Hills, Cleveland, in a house of his own, which is filled with tasty articles of furniture, all his own handiwork.

Zimmer has the reputation of being one of the most thoroughly honest and conscientious men in baseball. At one time this season during a close play the umpire had occasion to ask him whether he was out and he replied in the affirmative. There are few players as straightforward and
